User file	Title or reference of the user manual⁴	DISCO-FR-rev.1	
	Title or reference of the maintenance manual		

(1) Mandatory special equipment to allow for a maximum weight greater than 300 kg (single-seater) or 350 kg (two-seater). The user manual shall state that the identification card holder is responsible for installing the equipment concerned and making sure that it complies with the regulations (in particular the additional technical conditions for an emergency parachute).

(2) If necessary, refer to detailed criteria in the user manual.

(3) Only tick the activities for which the capacity of the microlight has been verified and tested. In this case, the user manual shall specify the procedures associated with these special activities and indicate which carriages/trikes are compatible with these activities (or at least the criteria that the carriages/trikes must meet).

(4) Recommended for non series-produced single-seaters and mandatory in case of transfer.

Signature
